Subject: Animas River spill

Hi Dennis,

How are things in Vegas? Are you following the abandoned gold mine tailings spill (3 million gal and counting) in the Animas River near Durango-Silverton, Colorado? It breaks my heart – one of the most scenic parts of the state. Apparently EPA and contractors were inspecting the site prior to starting pump and treat operations, and some kind of “mistake” happened. We only see what’s in the media.

It’s headed for Lake Powell and the Grand Canyon!!!! Horrible mess!!
